Look for Corporate financing, investor

## **Personnel services**

We are a company that specializes in the rental of driving staff. In order to strengthen our company, we are looking for a strong investor who wants to go with us on a promising expansion course.

We would like to point out that we are thinking of long-term cooperation.

The current staffing level is 18 persons who have been permanently accommodated in employment relationships.

The goal, however, is to attract about 100 drivers over the next 5 years.

We have a large archive of customers and personnel addresses, which we are constantly expanding with the help of our staff. We ask that only investors contact us who are not only looking for the fast money. Our company has a reputation for being accurate and reliable to customers and staff.

We offer interested parties at least 5% interest per year of the invested sum.
