## **Licensing system gastronomic - Pilot Shop**

Search Capital for the placement of a gastronomic concept catering licensesysteme in / Iran. The concept exists and has already discussed with Iranian authorities and will be viewed as very promising. The capital is to create a pilot shop. Then it will be awarded licenses to open more locals all over Iran. After thorough analysis, the market for this type of gastronomy is very open and such projects will positively supported . The age structure in Iran is 65% of the population under 35 years. It is great demand for leisure and gastronomy of this kind as higher offices told. The investor is in the newly created companies, so that the investment will be refinanced by the licensing . Is expected to benefit less 12%. The land is state provided. The plot size is about 3000 square meters, the size local indoor - 2 floors, approx 1000 - 1200 sqm.
