## **Model railway travelling exhibition**

The purchase price includes the complete inventory for the operation of a model railway exhibition. These are a total of 8 model railway systems in the gauges H0, N and Z along with the necessary accessories, rolling stock, control units and rolling containers. Of course, the know-how is also conveyed carefully and completely.

For transport, 2 trucks 7.5t Eurocargo with suitcase body and loading board wall are required.

The annual yield is approx. 50TSD and can be increased.

The assembly/dismantling and also operation can be carried out by 2 people.
