Model Making for Models from Surfing

Offer a small Trade In the Field of Modelling, that is, for a artisanally gifted successor. No more Staff needed first.

I make Models on a Scale of 1:15 around surfing. Surfboards with Sails, Surfers, Bulli of the 70s with Surfboard, Car Mirror trailer as Surfboard and much more. All Suppliers such as Printing, Plastic-parts Trading, Molding And specialty adhesive manufacturers can be designated for further Delivery. For the Surfboard as a Base Part, there Is a Steel Mold Made by a Mould Manufacturer. It is the Core Of the Company. In it, the PVC Surfboard is cast. The Company for this is in Ruhla. There are Also a number of Contact Addresses for Sale. The WEB page for the Sales Shop is also currently being managed. So far, I have led this Company to my actual Activity on the side, but I can no longer process the Orders in time.
