High and Civil Engineering Companies

I am planning a Construction Company with different Business Sectors, which will allow me to offer my Customers even more Service.

1.High and Civil Engineering

In The High And Civil Engineering business, we carry out all the Work carried out in a wide variety of Shipments throughout Germany. Whether the complete Custom-made Of Single-family Houses, the Production of Roads, Paths and Squares or the Production of Ingeur-building.

Thanks to The Cooperation of large House Construction companies, many Contracts for the Construction of Single-family Houses are already in front of us for , I plan to cooperate with a Contract Broker that only Arranges large Orders Throughout Germany, where Orders are already being placed here. There are.

I work in all Trades only with my own professionally completed Staff and no Subcontractors.
