Sun studio with coffee shop and hairdresser

Exclusive sun studio in for sale. The sun studio is equipped with 3 devices of the brands Ergoline, Soltron and UWE. The solariums are equipped with climate, aroma and breeze and are centrally operated by a computer control system. In addition, there is a coffee shop, a nail salon and a small hairdresser in the premises. The coffee shop is self-operated and the hairdresser is rented. In addition, there is the possibility to rent the nail salon. This means that the rent for the studio is paid more than half by the subtenants. The studio is completely handed over, i.e. it can be worked from day one and money can be earned.

The Jura coffee machine in the pictures has meanwhile been replaced with a new sieve carrier machine with 2 brewing groups. Is of course included in the price.
