Online retail for trend items and gift items

An online retailer for gift items and trend articles with many meaningful domains is offered since 1997, whereby the main domain (company name) already exists since 1997.

The shop has a wide-ranging and seasonally independent product range (currently approx. 6000 different products, approx. 20000 items are still in the pipe), so that all year round sufficient sales and of course also profits (through process and process optimization is air upwards). In addition to the main shop, other online distribution channels are also used for sales. A large number of well-known suppliers are available, as well as several thousand (in the upper 5-digit range) customer data. There are also very good contracts with very favourable conditions with logistk service providers. The number of visitors varies between 1500 and 9000 real visitors per day, depending on the season.
