Afterword:

This business model is designed for small investors to start a business possible with a few vehicles, and for those who invest only 1 car and see the business idea as car sharing. An ideal start for people who want to emigrate to Mallorca and are looking for a business idea.

Interestingly, however, particularly for investors who have recognized in this business, the potential involvement of the investment. no investment property and no other business participation promises such a return.

We have set ourselves for , a limit on vehicles. Discuss the investment now, or plan now with us to your new life in Mallorca
