For over fifteen years we visit Turkey home and work and watch the positive economic growth. Turkey has a huge backlog of consumer goods, environmental protection and infrastructure, in the last four to five years, a significant increase in the large cities are for new cars. Also, I am several times a year on-site and therefore has the best knowledge of the circumstances.

In this area we Antalya last project with our Unrivalled pay the sales of car accessories are twice as high as in other European countries, an opening time control there is not as the direct sales subject to any restrictions. Our idea in the year as follows Recording and agreements with wholesale have been achieved. The supplier of our planned car - Accessories and online sales is the company By providing the company's online ordering system from us ... it is possible to coordinate more than 15,000 articles on demand and ships to

Pick up at the Hanover branch ready noted. Transported by truck through a well-known to us

Turkish trucking company what a weekly return trip to Turkey on cost increases.

The sales office and a warehouse are also in Turkey in the town of Manavgat (Antalya) available.

Note our son Hasan Sahin is from the aforementioned city Antalya, which is for us a huge advantage.
