Look for Corporate financing, investor

CRM system insurance

Over the last 2 Years, we have developed a web-based software system for Insurance Agents and Insurance Brokers, which we now want to introduce to the Market. The Product is ready and operational, and we already have initial Inquiries. We combine the Experience as an Insurance Broker with the Requirements in daily Practice with the Advantages of our own Programming and Adaptation to our Needs.

The Result is a Product for Insurance Brokers that could not be simpler, more efficient and cheaper.

We are now looking For investors to support the Introduction of the Product and to further advance the associated pool formation of the Company.

Also Like to be An industry Colleague. But no Obstacle to Industry. Our product is simple, insurance-independent, and universally applicable.

And we have some Unique Selling Points that almost guarantee success.
