Entrepreneur in the Software Business is seeking to buy a stake in a Business Intelligence Software Provider/Consulting Company

I am an entrepreneur in the software business and am seeking a stake in a Business Intelligence Company. I have existing client relationships with more than 60 Corporates and would play an active role in the sales development of the company.

Minimum requirements for the sought after company:

- at least 3-5 full time employees
- six figure annual sales in the business intelligence area
- 3-5 well known reference clients in the BI field
- maybe done BI projects for CFOs
- the product must be ready to sell or in case of the company being a ISV for a big BI vendor then the company must be ready for taking on new projects
- no start-ups, no companies with sales revenues, no market testing status

>> The company must be up and running and generating BI revenues.
