Online retailers

With online retailing, we generated up to €100,000 in sales/month with electrical trade and IT products.

We offer the complete shop system with sales channels-Amazon, Ebay, Hitmeister etc., connection to search engines and interfaces to suppliers.

We naturally pass on our experiences and contacts with suppliers, with price search engines, analytical tools, etc., which we have made with our own eCommerce system.

Online retailing is suitable for the expansion of an existing company as well as for a start-up or part-time job. It is possible to extend the product range to other product groups at any time.
