Tour operators

On the market well established small tour operators for individual and group travel for private reasons. Field of activity: Yoga, Pilates, Meditation, Qigong, Reiki - and Vegan Travel.

Enormous development potential. Offer division can be expanded according to our own ideas. Great opportunity for start-ups who are familiar with the tourism industry.

The company is still relatively young and is in a phase where it is ideal for expanding. The acquisition is interesting for start-ups who want to avoid a costly and time-consuming start-up phase, as well as for existing competitors who want to expand.

Due to a well thought-out marketing concept, we were able to position ourselves well on the corresponding market in the first financial year.
