Offer Corporate participation, firm participation

Acrylic

We produce individually designed Displays, Promotional Items made of plexi and Acrylic Glass with an appealing Design.

The Products are constantly being redesigned and must be driven as a Laboratory Test each time first in Order to find out the exact Data for the error-free success of Series production.

As a Result, a certain Proportion of Misproduction Can often not be avoided in the Experimental Series. This Part of the Production is roughly comparable to a Sample construction.

As a result, difficult processing Times and therefore Difficulties in meeting delivery dates are difficult to Calculate. This also makes monthly Sales Planning more difficult and Is always associated with Fluctuations and Outages.
