Business for sale more than 15 years

ID 19398

Offer Corporate sales, firm sales, sales

Website/web portal

For sale is a sweepstakes site that regularly generates monthly leads through partner programs and also has an extremely good ranking (page 1 on Google with highly competitive keywords). Two Facebook pages are connected, which are used to host sweepstakes at intervals.

The concept is based on the placement of sweepstakes, vouchers and free offers that can be perceived by users. If you participate validly, the leads will be paid. In addition, it is possible to book so-called promotions-a shop is available for this.

The page has been created in such a way that the workload is minimal. Behind this is a complete and easily manageable content management system based on the Joomla.

The site has about 5000 visitors a month, currently generating 300 euros a month through partner programs. The Facebook pages have about 1500 and 2800 likes.
