Online shop glass shop/kitchen accessories

I sell my order business from the glassware/bottle trade (B2C & B2B) sector, which has been running since .

Mainly sold are canning glasses and bottles, but also kitchen accessories such as screens etc.

I sold a lot through ebay and Amazon (ca-40k last year), but also distribute pallet-ware B2B, partly ex stock, partly directly ex manufacturer.

Current inventory: 7 pallets with a value of €4.8k.

Due to the high fees payable at ebay and Amazon, an SEO campaign is currently running to generate more revenue directly from the homepage. This campaign has been going on for 4 months and has already been settled by me.

If you have any questions, just write to me.
