Online shop of individual art market

Online shop in the individual art market with a lot of potential to sell description
After 5 years, we decided to close our company for personal reasons.
For this reason, we offer our online shop, including reliable manufacturer contacts (suppliers) and the brand for sale. The whole society can also be taken over.

The brand has performed very well; With returning regular customers, good Google Rankings and an excellent TrustedShop rating with 5.0 stars.
Social media channels (Facebook, Twitter, Instagram, G +) are also available.

The web shop has a complex configurator that allows customers to place individual orders.
In addition, the shop has a module for invoicing as a PDF (including automated invoice number) and an expandable payment module (Keditcards, Paypal, SEPA direct debit, advance payment, invoice purchase, etc.).
