Sawmill

Due to the lack of succession, the long-established sawmill in the north-east of North Rhine-Westphalia and west of Lower Saxony is offered for sale. The company specialises in hardwoods and enjoys an excellent reputation among its customers. The many regular customers secure the constant turnover. Despite good sales, the company is still expandable. The company is sold entirely with the approximately 15,000 m² property. The owners guarantee a well-founded training.
