ID 20513

Offer Corporate sales, firm sales, sales **Steel and mechanical engineering**

The company specializes in the production of machinery and components for small and medium-sized enterprises from industry. The company enjoys a very good reputation at the site and in the surrounding area. The operator is known for its high-quality and constant quality. There are no dependencies. The share of regular customers is good in all sectors and is constantly supplemented by a healthy level of new customers. The machinery and inventory meet today's requirements. The workshops and the design department are state-of-the-art. The potential successor/successor can start with a customer base, the good reputation, of the company. A takeover is easier than a new foundation, because there are proven operational structures and processes in place. The buyer of this property takes over a backlog of orders as well as a customer base, which immediately guarantees him sales and earnings.
