

Look for Corporate co-operation, firm cooperation

Expert opinions, valuation

In order to expand my work, I am looking for cooperation with experts in the construction industry as well as for the valuation. I am certified in accordance with DIN EN ISO/IEC 17024 for damage to and in buildings, incl. valuation of built-up and undeveloped land. Thanks to my many years of experience in construction and in the renovation of old buildings, I bring with me extensive practical and theoretical knowledge for the work as an expert.
