Medium-sized enterprises

We are an owner-managed investment company and take over companies in transition situations at short notice. These include loss-making group spin-offs, companies before or from insolvency proceedings or companies with a negative contribution to the profit in which the owners do not want to carry out their own restructuring expenses. We take a cross-sectoral and cross-border approach, including in complex international companies and starting situations.

Our focus is preferably on corporations with the following circumstances:

- Outstanding market position in a niche market.
- Traditional corporate background, leading in the brand and / or products.
- Only "Old Economy"
- Headquarters are located in Europe
- Experienced management or the foreseeable possibility of establishing one. There should also be an experienced staff with low turnover.
