Real estate management

Real estate management wanted for sale (WEG and/or interest house management).

Two people from a medium-sized company who have worked for many years in the real estate industry in leading positions want to make themselves self-sufficient and are looking for a company in the area of the management of residential property and/or interest house management in the /southern Schleswig-Holstein area for purchase/takeover. We are also happy to provide a succession plan to ensure a slow transition over a period of time to be agreed.

Our ideas go in the direction of a small to medium-sized company, which has an administrative stock of between approx. 500 and 2,000 units.

We look forward to hearing from you.
