Bars and discos

BUSINESS PARTNERS WANTED WITH CAPITAL

in the catering sector, interesting opportunities will arise in the future, especially for bars and discos. Due to the COVID-19 crisis, some interesting objects have already been listed on the relevant real estate portals.

In this context, I am now looking for high-capital partners who would like to become active in this area. Due to the local proximity, is an option as a starting point. As a young entrepreneur, I take over the operational activities that accrue in the club operation and take care of timely social media marketing in order to establish not only a club, but a successful brand. This creates further potential (opening in several cities, franchises, etc.). Especially after the COVID-19 crisis, people will increasingly take advantage of various leisure activities such as discos, which is why this is the ideal starting point.

I am pleased with your request.

[Co-operation](#)

Region 70, Germany
