Go new independent ways? Have your destiny in your own hands? Realize your own dreams?

...or use new potentials, markets and distribution channels with growth of an existing travel agency?

Here is a very good opportunity to realize this!!! How?

...with my old-established and established travel agency in the district of , which I built up myself as a sole proprietorship over 12 years ago, but which I am now offering for sale here due to a change of location due to personal reasons.

Through our customer orientation, customer service and wide range of services, we have built up very loyal existing customers across the entire "age structure", but also repeatedly made a good name for ourselves with new customers of an interesting and large catchment area. Thus in the last years approx. 800.000€ turnover/year could be gained.

From weekend trips to cruises, "club trips" in Germany and package tours in Europe to trips to distant countries, everything is included.

There are appropriate cooperation agreements and very good contacts to established tour operators.

Location: in the center of a small Eifel town with corresponding synergies of neighboring stores and infrastructure (including parking spaces directly in front of the door)

Price: 80.000€
