Modern Shopify store for modern LED ultrasonic room humidifiers and fragrance sets.
68.000€ Turnover since 2020, 2618 orders CR 2.86%.

A Shopify shop in the field of modern LED ultrasonic room humidifiers is sold, which could be easily expanded. The online shop is already ready for launch. The previous shop operator no longer operated e-commerce for private reasons. I took over the shop, but I fail because of my technical skills.

The core product is up-to-date and could be placed on the market, is around \$8 in purchasing including tax, import etc. Other similar or suitable products are conceivable. For example.B, suitable fragrance sets/oils have already been offered in the past.

I recommend working with the agency with Fullfillmentservice in Germany. Saves a lot of time and they are really very experienced.

There is a complete briefing in workflow, system, marketing and more.
