

The big business marketplace

Business for sale more than 15 years

ID 23366

Look for Corporate participation, firm participation

EE / Charging Infrastructure

I would like to support you with capital and expertise to drive the growth of your company in the field of renewable energies, energy management and/or charging infrastructure for electric vehicles.

With more than 10 years of international experience in this market environment and the successful development of multi-million business areas, I can support you as a silent or active shareholder.

Please send me your business model, your key company figures and the outlook for the next 2-3 years. I expect a guaranteed return on the capital contribution as well as an appropriate valuation of shares with participation in the net income for the year.

I look forward to hearing from you.
