Succession planning/ company takeover GBN 2206

In the context of succession planning, our client would like to sell 100% of his company shares.

The successful family business with approx. 25 employees, a turnover of € 2 million and an EBIT margin 30% is active in the field of construction services for infrastructure, industrial, commercial and public as well as private construction projects.

The company operates in two locations - each in a metropolitan region.

The company is particularly suitable for diversification strategies in the field of building construction (trades).

We will then immediately send you a confidentiality agreement.
