

The big business marketplace

Business for sale more than 15 years

ID 24553

Look for Corporate participation, firm participation **Management**

We are a young, innovative property management company which historically manages its own portfolios and will be opening up to third parties in the coming weeks. In addition to taking on mandates in our own property management, we also want to grow actively through strategic acquisitions. We are looking nationwide for exciting property management companies with a focus on residential properties of any size and also provide support in succession situations. We look forward to hearing from you for an initial confidential exchange.
