Offer Corporate sales, firm sales, sales **Cosmetic institute**

Wanted: Passionate successor for my renowned cosmetics institute

Since it was founded in , I have put a lot of commitment into building my passion project, a specialist institute for dermacosmetics, into an extremely successful and lucrative company. The love and passion that I have put into the institute is reflected in every detail.

Now it's time for me to bring a new project into the world and start a new chapter in my life. For this reason, I am looking for an equally passionate and loving successor who is willing to take over my cosmetics institute

The institute is located in Pempelfort and is characterized not only by its outstanding location with very good transport connections, but also by its spacious 100 square meters. It has an inviting, light-flooded reception area with a sales counter, shelves and kitchenette, a comfortable waiting area, two first-class treatment rooms and a storage area.

The furnishings demonstrate a harmonious, modern ambience that immediately makes customers feel relaxed and comfortable.

I have built up a large, loyal customer base that I will pass on to you. The customers are consistently friendly, warm, reliable and open. Sales are very good and constantly growing - and can still be expanded since I don't work at full capacity.

I have worked successfully with the Treatwell booking system so far and received a rating of 4.9 out of 5 possible stars from a total of 524 reviews. You are welcome to continue this excellent reputation if necessary.

The business partnerships I have established do not require any compulsory depot, but guarantee sustainable and first-class results in skin care.

There is still a lot of untapped potential in this institute, especially due to the fact that the institute is operating at full capacity and hiring additional specialist staff. Even the possibility of a third treatment cabin is conceivable.

That's why I'm looking for someone like you who practices the profession of beautician with a lot of love and passion and wants to realize his dream of owning his own institute.

Here are a few more facts about the institute at a glance:

- Area: 100 square meters, ground floor shop
- Spacious entrance area with expandable waiting area
- Large window front for effective advertising
- 1 sales counter and 2 sales shelves
- Fully equipped kitchenette with refrigerator, kettle and fully automatic coffee machine

- Separate staff and guest toilets
- 2 fully equipped treatment cabins
- Security devices such as alarm systems and cameras
- Office equipment including printer, company cell phone, DSL and landline connection
- High-quality household appliances such as Miele washing machines and dryers, vacuum cleaners
- Specialist equipment such as ultrasonic cleaner and Hot Kabi (compress warmer), microdermabrasion with ultrasonic device, microneedling
- Existing inventory of goods and consumables
- Various decorative elements
- Additional storage area and cellar

I am of course available for further details and a personal conversation.

I look forward to getting to know you personally.
