Learning Therapy

For reasons of age, I am selling my owner-managed, well-established practice for learning therapy. With 6 volunteers in three therapy rooms, we look after about 50 students from first grade to graduation.

The practice is conveniently located directly at the train station and is generously equipped. We are recognized as a service provider for the youth welfare offices of the city of and the Main-Taunus district. Through cooperation with various schools, an all-day capacity utilization is ensured.

The practice equipment with furniture and teaching material is part of the offer, ideal for business start-ups.
