Look for Corporate sales, firm sales, sales

## **Mechanical engineering, metal construction, locksmiths**

I am looking for a mechanical engineering/metal construction/locksmith company that is looking for a successor. I already run such a company myself and would like to expand. The company to be sold should not be too far from . Company size should be between 1-10 employees, but in general I like to look at everything that is offered and am open to many things.

[Corporate sales](#)

Region 42, Germany

Entry in own name
