Look for Geschäftsführer, Geschäftsführung **IT system house**

We are looking for a Technical Director

Job description:

We, a leading IT system house in North Rhine-Westphalia, are looking for a committed technical managing director. With over 20 years of experience, we offer comprehensive services in the areas of IT monitoring, network analysis, WLAN and IT security.

Requirements:

Experience: Several years of management experience in the IT industry, ideally in the field of IT security and network management.

Expertise: In-depth knowledge of IT infrastructures, OT monitoring and network analysis.

Leadership skills: Strong ability to lead and strategically develop a technical team.

Communication skills: Excellent communication skills to maintain and grow customer relationships.

Tasks:

Strategic planning and management of the technical department.

Ensuring the quality and efficiency of our IT services.

Further development and implementation of innovative IT solutions.
