As a long-standing entrepreneur with extensive experience,
I am looking for an established company to take over.
I am specifically looking for a company that is ideally located near and has a solid
business foundation and growth potential.

My goal is to continue to run the company successfully and to expand it sustainably
through targeted investments and strategic developments. Cross-industry offers are
welcome, but I am particularly interested in companies from the wholesale sector, car
washes or the like.

If you would like to hand over your company to trustworthy hands, I would be happy to
hear from you to discuss further details.
