## Look for Corporate sales, firm sales, sales **Car wash or similar**

As a long-standing entrepreneur with extensive experience, I am looking for an established company to take over. I am specifically looking for a company that is ideally located near and has a solid business foundation and growth potential.

My goal is to continue to run the company successfully and to expand it sustainably through targeted investments and strategic developments. Cross-industry offers are welcome, but I am particularly interested in companies from the wholesale sector, car washes or the like.

If you would like to hand over your company to trustworthy hands, I would be happy to hear from you to discuss further details.
