Innovative carpentry workshop on the High Rhine is looking for a successor (m/f/d) due to age

Description:

The brightly furnished workshop is fully equipped (including CNC system, electric woodworking machine) in order to be able to optimally meet individual customer requirements. The expertly trained and long-standing team (5 employees) produces furniture for the private and commercial sector, tailored to wishes and ideas. Effective production processes ensure the best possible workflows. A top location with very good connections round off the overall package.

A handover will take place for reasons of age. The timetable for a handover is flexible, and the transferor will be happy to provide induction. The property can initially be rented.
