

Offer Corporate sales, firm sales, sales

Passenger transport by taxi

For sale is a well-established taxi operation with three Tesla Model Ys (Maximum Range, All-Wheel Drive, Non-Smoking Vehicles) that are in excellent condition. The vehicles are only one year old and have been professionally converted into taxis at Intax. They have a complete taxi package including a mirror taximeter. All taxis have received a new TÜV sticker and are immediately ready for use.

Details of the vehicles:

Vehicle 1: Mileage 35,000 km

Vehicle 2: Mileage 38,000 km

Vehicle 3: Mileage 24,000 km

The three concessions are included in the purchase of the entire operation and entitle the taxis to participate in the annual airport raffle, for which the taxis are already registered.

Financing: The vehicles are financed; existing loans must be taken over or repaid. A sale has been agreed with the relevant financing institutions (LABO).
