## **Accounting / Payroll Office**

For sale is an excellently established and future-oriented office for accounting and payroll accounting in the heart of , which convinces with its complete digitization and standardization. With an impressive turnover of about 900,000 euros and a profit of 635,000 euros, this company shows its exceptional efficiency and profitability. The success is based on the joint achievements of a small, dedicated team of three employees and me as the owner.

The work is done with the renowned Addison software from Wolters Kluwer, which guarantees the highest standards in accounting and payroll accounting. To ensure a smooth transition, I am willing to support the company for up to a maximum of two years – according to the wishes of the buyer.

Particularly attractive: If the buyer is a tax consultant, additional sales potential immediately opens up.
