## **Manufacturer of tools for mechanical woodworking**

One of the top 3 manufacturers in its market segment is to be sold as part of a classic retirement succession. The managing partner wants to retire from the company for reasons of age. It is a long-established company with an interesting business model and good development opportunities. The tools are developed and manufactured individually to meet the customer's needs. This generates follow-up business for the entire lifespan of the tools (up to 10 years). Sales are in the order of €3.5 million with a good 10% EBIT.
