Look for Corporate sales, firm sales, sales

Online trade

I am currently looking for an established online shop that is for sale. I am interested in both online shops with a dropshipping concept and business models that appeal to both B2B and B2C customers. I aim to invest in an existing company and benefit from its experience, customer base and growth potential.

My favorite industries for the online shop are diverse.

Ideally, the online shop should have the following features:

- Established on the market
- Regular proof of sales with demonstrable profitability
- Stable customer base with positive customer feedback
- Scalable business model with growth potential
- Professionally designed website and user-friendly interface

I cordially invite sellers who are interested in putting their online shop in good hands to contact me.
