Look for Corporate participation, firm participation

Taxi

Search for a company investment or business partner to set up a new taxi company in the LÃ¼beck area.

I have extensive experience from many years in the taxi and rental car industry and have the necessary expertise according to BOKraft. The financial means for a start-up or participation are available. The aim is to build a modern, service-oriented taxi company with a future-oriented concept. I am therefore looking for a reliable partner with an entrepreneurial spirit who is interested in founding or participating together. An existing company can also be taken over or expanded.

Contact is welcome at any time.
