For Sale: Established and Highly Profitable Niche E-Commerce Company with Unique Selling Proposition

This well-established, highly profitable e-commerce business with a clear niche focus and unique market positioning is now available for acquisition. Successfully operating for over 15 years, the company stands out with a strong market presence, a loyal customer base—including renowned brands and major clients—and an efficient, fully digitalized business model.

### Key Highlights:

**Strong Revenue Performance:** Annual revenues in the seven-figure range with a positive growth trajectory

**International Supply Chains:** Streamlined and reliable logistics with trusted partners both domestically and abroad

**Turnkey Operation:** Qualified and experienced team can remain in place upon request

**Real Estate Included:** Owned office and warehouse facilities included in the purchase price

**Excellent Transport Links:** Direct access to highways, rail connections, and a seaport location

**Fast Delivery Capability:** Large inventory with stable stock levels ensures consistent product availability

**Digitally Future-Oriented:** New ordering system being implemented to automate processes and scale revenue

**Strong Online Presence:** High-visibility domain with no legacy issues or SEO penalties

**Growth Potential:** Ideal conditions for product range expansion, market development, and internationalization

### Market Position and Competitive Advantage:

The company operates in a highly specialized market segment with minimal direct competition. Thanks to its clear positioning, digital infrastructure, and long-term customer relationships, it offers a stable foundation with strong growth potential—especially attractive to entrepreneurial or industry-focused investors.

Strategic Acquisition Opportunities – Ideally Suited For:

E-commerce companies specializing in niche assortments, packaging solutions, or customized products

Manufacturing businesses and printing companies seeking vertical integration or direct sales capabilities
