

Offer Corporate sales, firm sales, sales

Profitable car rental company (passenger transport)

Dear interested parties,

We are selling our rental car company, which we have been running for two years.

We have three car rental concessions in the company and drive exclusively for Uber and Bolt. With the purchase, two vehicles are transferred, which are still financed, and one vehicle, which was purchased from own funds.

The GmbH has a strong credit rating and a committed entrepreneur can easily increase the number of vehicles in the short term without own funds. The staff can also be taken on, but is voluntary.

The 43,000 euros we are asking for include all the cars, the complete company structure, the concessions.

The successor can generate sales directly from the takeover.

The company is based in Frankfurt-Goldstein and is subject to change.

An operations manager can also be provided.

Sincerely,

[Corporate sales](#)

Region 60, Germany

Entry in own name
