## **Onlinemarketplace**

This is an online marketplace for regional products from Northern Germany, established in 2021. The platform combines a modern, fully functional e-commerce system with an active vendor network, an organically grown community, and dedicated content channels.

Currently, more than 70 vendors offer around 730 products ranging from delicacies and artisanal goods to unique gifts. The marketplace is complemented by a blog, a podcast, and a social media presence with approximately 45,000 followers across Instagram, TikTok, Threads, and Facebook.

The business model is built on sustainability, regionality, and authenticity, addressing the growing consumer demand for transparency, local connection, and conscious consumption.

The platform is turnkey and ready for immediate takeover and scaling. It is particularly suitable for strategic buyers in e-commerce, tourism, food retail, or media who want to expand their digital portfolio with an established brand and existing reach
