Look for Corporate sales, firm sales, sales **Nursing**

Outpatient care service up to 40 employees wanted – succession planned.

I am specifically looking for a small to medium-sized nursing service (5-40 employees) within a radius of 100 km around (Recklinghausen district) who is looking for a reliable successor.

It is important to me that the good care of patients and the valuable work of the existing team remain secured in the future.

Why I'm going this way:

- Nursing is more than a profession for me - it is a task close to my heart.
- I want to take responsibility and focus on quality and humanity.

It is important to me that employees can work in a stable, appreciative environment.

My aim is to maintain the existing structure, but at the same time to introduce new ideas step by step (e.g. in the areas of organisation, digitalisation, quality).
