

Offer Corporate sales, firm sales, sales

Online trade

For sale are the assets of a sole proprietorship founded in 2025 specializing in CBD aroma oils. The sale is due to time constraints, as I run an existing service company at the same time and do not have the capacity to actively build up a second business.

The company owns about several hundred bottles of a 10% Broad Spectrum CBD aroma oil (THC-free, EU-compliant, non-intoxicating), the associated packaging and labels, a fully equipped online shop including domain and branding, social media accounts and contacts to producers and suppliers.

The company is debt-free, has no ongoing fixed costs other than the domain costs and thus offers a flexible starting point for the buyer. Since no customer base has yet been established, there is an opportunity to develop the business according to your own ideas. The sales price is 10,000 € VB and is based on the value of the goods and the existing brand structure.
