

Look for Corporate participation, firm participation

Temporary Employment Personnel Placement

We are looking for an experienced cooperation partner or investor with several years of expertise in temporary employment and personnel services.

On our part, we already have a GmbH and a valid AÜ permit (AÜG), so that the legal and structural foundations for successful cooperation are in place.

The aim is to jointly exploit growth opportunities, win new customers and further expand the company in the long term.

We attach great importance to practical knowledge, industry knowledge and operational experience in order to optimally complement the existing structures.

We would be happy to provide you with further information about our company in a personal conversation or by e-mail.

We look forward to your feedback and possible suggestions for cooperation.
