Gym Unstaffed

Dear franchise and investment enthusiasts,

Interested in a sporty and at the same time safe investment?

There has never been an opportunity like this before.

- Participation possible from as little as 3% in a GYM of the brand
- 100% capital secured – secured by the parent company
- Attractive exit options: 100% capital repayment possible after the first 2 years

The brand is the premium provider of unmanned and unmanned fully digitized gyms. The company also cooperates with the largest fitness platforms, this allows customers of the platform to train in the gym and every "check-in" is remunerated and offers additional income.

Without employees – but never without personal contact:
A live coach is always available via video transmission if needed and offers SAFETY and training assistance.

Of course, the brand also offers a classic franchise system. Then you are 100% owner.
