Offer Liquidation, Operating dissolution **Software**

Source code written in C# for sale. The software runs on Windows and is installed as an app on the PC. It is a software for landlords of rooms, holiday apartments, garnis, hotels etc. The software was suitable for private and commercial landlords. The app is state-of-the-art in terms of program technology and multi-user capability as well as multi-user capable. The first software licenses have already been sold. The software was suitable for programmers and/or people who enjoy distributing software. Ideal for founders or to supplement the existing offer, e.g. as a second mainstay. The sale is for reasons of age.

Liquidation

Region 78, Germany
