ID 26796

Look for Corporate participation, firm participation

## **Solar Fences**

We produce solar fence systems in various designs and will launch on online platforms and in various hardware stores starting in March. Since the demand is already significantly higher than expected even before the official launch, we are still looking for investors. If interested, please get in touch, and we will provide the relevant documents. Please only serious inquiries, no time-wasters.

### [Participation](#)

Region 86, Germany

Entry in own name
