Offer Corporate sales, firm sales, sales

Trading companies in industry, mechanical engineering & automotive

For sale is a trading company that has been established for several years in the field of small mechanical engineering as well as automotive fluid and thermal systems with a grown customer and supplier network.

The company is operationally lean, profitably scalable and is particularly suitable for individuals or companies that want to take over existing customer relationships and supply chains and continue them directly.

Solid sales with growth

Despite difficult market phases, the company was able to grow continuously:

2,000 € turnover

2,000 € turnover

2,000 € turnover

2,000 € turnover

The business is mainly based on recurring customer inquiries and long-term supply relationships.
